The purchase price for the acquisition amounted to SEK 32 million (EUR 3.45 million), which was paid as a cash consideration in conjunction with the transfer of the assets. Players across Europe utilise AskGamblers.com with the UK being the company's largest market. The transaction comprises all affiliate accounts, domains, mobile apps and social media accounts.

CEO'S COMMENTS

The year started with another record breaking quarter together with a successful listing of Catena Media's shares on Nasdaq First North. The rapid growth we noted during 2015 continued through the start of the year. Growth in the first quarter of 2016 compared to the fourth quarter of 2015 largely comprised organic growth, however, it should be noted that at the end of this quarter two further acquisitions were made. Our organic growth is a result of several factors, whereby our focus on increasing the numbers of new depositing customers combined with our investment in technology are producing results. By introducing our business intelligence and technical platforms to the newly acquired companies, we are able to accelerate their existing growth rates. A tangible example of the effect of our acquisition model and its impact is Right Casino Media (acquired on 23 October 2015) which generates paid revenue. Comparison of paid revenue in the fourth quarter of 2015 with the first quarter of 2016 shows organic growth of 83 percent quarter on quarter.

As referred to above, we completed two strategic acquisitions in the first quarter that strengthened our leading position in Europe and positioned Catena Media for further expansion. Moreover, we concluded our largest acquisition ever when we acquired Askgamblers.com in the beginning of April. This had no impact on our first quarter but comprises a key acquisition that will have a major impact on our strategic footprint in Europe going forward. Our exposure to regulated markets has increased through the recent acquisitions, which is in line with our strategy and brings valuable know-how and experience for continued expansion.

Excluding non-recurring items, our operating margin declined slightly during the first quarter compared to the fourth, which was a natural and short-term consequence of our substantial growth in paid revenue as well as our investment in technology and the recruitment of employees during the quarter.

Robert Andersson, CEO, Catena Media

THIS IS CATENA

Catena Media’s journey began back in 2008. The journey has been one of success, trial and error, and drive and determination. As a result, we now have a competitive advantage in online lead generation.

Catena Media is an online lead generation company. We generate valuable traffic to our clients using various online channels. We aim to build market-leading web portals that best suit the needs of our clients’ customers. We use our expertise to attract the desired leads and forward them on to our clients in the form of paying customers.

To achieve these goals, we must know our clients’ target audiences and understand the optimal method of reaching them. This could be through websites, which we design specifically with sophisticated search engine optimization in mind, thereby reaching the leads that are most valuable to our clients.

MISSION	VISION	GROWTH STRATEGY
To provide the most valuable online and mobile leads for clients in carefully selected industries.	To become the world’s number one provider of high-value iGaming leads.	To grow and expand quickly, though in a scalable fashion, and ensuring we retain the best talent.

MARKET OUTLOOK

Both the iGaming market as a whole and the online casino segment in particular have posted strong average growth in Europe over the past five years. iGaming operators are increasing their marketing efforts in digital channels, benefiting Catena Media whose mission is to increase online visibility for operators, and online casinos in particular. To remain a preferred marketing partner, Catena Media is actively working to develop its offering and the next generation of the company’s technical platform is currently in development.

Several technical trends support Catena Media’s growth, mainly the shift from land-based gambling to iGaming along with increasing internet penetration and higher bandwidth capacity. These technical trends are making online casino games more accessible to new audiences, such as younger players as well as a higher proportion of female players.

Some of Catena Media’s core markets are currently undergoing regulatory reviews. The Dutch parliament is expected to make a decision in 2016, while the Swedish market is expected to undergo some form of re-regulation in 2018 at the earliest. Both Norway and Finland are currently a long way from any kind of re-regulation, however, when some form of re-regulation does take place for these markets, it is likely to have a positive impact on market growth. New national laws and regulations (re-regulation) for casino services have both positive and negative effects on the online casino market. Catena Media’s view is that re-regulation generally increases the overall demand for iGaming and online casinos. For instance, the UK market has been re-regulated under a legal framework governing iGaming and online casinos which has led to greater market transparency and predictability, and the desire of gambling operators and affiliates to establish themselves in the market.

DEVELOPMENT DURING THE FIRST QUARTER

Continued strong growth

The year started at a high pace with the listing of the company's shares on Nasdaq First North and several strategic acquisitions. Meanwhile, the company experienced strong organic growth in gaming revenue and the number of depositing customers (NDCs), resulting in a stabilised [operating] margin. Having strong faith in the business model and underlying market, Catena Media is aiming for further growth by actively developing the portfolio of websites and keeping them continuously updated with high-quality content adapted to the core markets. The work has become more efficient thanks to the platform Catena Core. Constant improvements to search engine optimisation (SEO) methods are also confirming Catena's status as a preferred marketing partner for customers.

In March, Catena Media acquired two affiliates thereby consolidating Catena's position as one of Europe's fastest growing companies in lead generation and enabling further global growth. The first acquisition was of an affiliate network in Belgium and Italy operating a number of online casino comparison websites in regulated markets and generating revenue from around 1,000 NDCs each month. Shortly after came the acquisition of a Swedish affiliate network Wonko Media AB, which provides Catena Media with a broad foundation of attractive portals and player databases in the Nordic online casino sector as well as an even flow of revenue in coming years. Last but not least, our biggest acquisition to date was made after the end of the quarter; the acquisition of Serbia-based AskGamblers.com which operates one of the market's most highly visited web portals for player reviews and rankings, and provides global traffic and completes Catena Media's current portfolio of websites. Moreover, Catena Media won access to a talent pool of some 30 skilled employees in technical development and programming, ensuring the supply of competence for further growth.

Strengthened organisation

Catena Media is growing by the day and the number of employees has increased from 34 as at 31 March 2015 to 86 in less than a year. Despite this, the need for additional talent remains. A new organisational structure was implemented in the second half of 2015, with the aim of increasing efficiency and flexibility, and positioned us for continued growth moving forward. Furthermore, the management team was recently reinforced by the recruitment of a Chief Product Officer (CPO). The company is also working actively to promote increased wellness and an improved working environment.

Successful listing of shares

Catena Media’s listing on the First North Premier exchange was successfully completed in February 2016.

We have identified numerous advantages with being a listed company. The increased transparency helps to strengthen our brand, which is important for our relationships with casino operators. As a listed company, we also have better opportunities to grow and quickly adapt our operations to new conditions in the gambling industry. In addition, we can strengthen our financial position and thereby create opportunities for growth through acquisitions and or through establishing operations in new markets.

FINANCIAL PERFORMANCE DURING THE FIRST QUARTER OF 2016

Revenues

The Group’s revenues totalled EUR 7.46 million (1.96) in the first quarter, corresponding to an increase of 281 percent compared with the same period in 2015. Out of the EUR 7.46 million, EUR 5.49 million (1.96) represented organic revenue. The increase in organic revenue was driven in part by organic growth and partly from a number of acquisitions throughout the period.

Revenue from the acquisitions of Wonko Media AB and the Belgian and Italian casino comparison websites are reflected in Catena Media’s revenues and results as from March 2016. In the first quarter, revenue derived from Wonko Media AB amounted to EUR 0.12 million, whilst revenue generated from the acquisition of the Belgian and Italian casino comparison websites amounted to EUR 0.09 million for March. It is expected that the pre-tax profit margins from these two acquisitions will be 85 percent and 80 percent respectively.

Paid revenue corresponds to EUR 1.97 million (nil). This revenue is related to the acquisition of Catena Media UK Limited (formerly known as Right Casino Media Limited (‘RCM’)). The acquisition was finalised on 23 October 2015 and revenues relating to this acquisition are reflected in Catena Media’s revenues and results as from 1 November 2015.

This significant increase in revenue is attributable to the fact that during the prior period, the Group acquired the customer databases, domains and websites of eight competitors within the Group’s current core markets. In addition, during the current period, the Group acquired the customer databases, domains and websites of another two competitors.

Expenses

Operating expenses amounted to EUR 4.28 million (0.77). Other operating expenses amounted to EUR 2.14 million (0.45), and represented the more significant expense component. Other operating expenses include primarily direct costs driven by paid revenue. During the first quarter, these costs predominantly related to AdWords (Google spend) costs, and amounted to EUR 1.28 million (nil).

Personnel expenses amounted to EUR 1.00 million (0.31). The increase in personnel expenses was due to the recruitment of additional members of top and middle management and additional employees across the organisation. As a result, the headcount totalled 86 employees at the close of the first quarter this year compared to 34 employees at the close of the same quarter last year. The increase in headcount was driven by the strong growth currently being experienced by the Group. This also gave rise to the significant increase in other operating expenses as a result of an increase in staff-related support costs such as increased office expenses, additional office rent, more software user licences, recruitment agency fees and other similar items included in other operating expenses.

Depreciation and amortisation amounted to EUR 0.16 million (0.01). The increase in depreciation and amortisation was mainly attributable to the acquisition of competitor player databases during the prior year and the current quarter. 4 percent of the cost of these acquisitions is being expensed over a three-year period. In the case of Catena Media UK Limited, 12 percent of the purchase price is also being depreciated over a three-year period.

As a result of the rapid expansion, the Group witnessed an increase in other operating expenses including domains for SEO efforts, external consultancy fees and server hosting fees.

Non-recurring costs relating to the listing of the company of EUR 0.98 million (nil) are included in operating expenses.

Earnings

Operating profit for the first quarter of 2016 amounted to EUR 3.18 million (1.19), an increase of 167 percent compared to the corresponding period last year. Adjusted operating profit amounted to EUR 4.16 million (1.19), corresponding to an adjusted operating margin of 56 percent (61). Operating profit includes IPO related costs of EUR 0.98 million (nil).

Profit before tax amounted to EUR 3.83 million (1.19), an increase of 222 percent compared with the corresponding quarter in 2015.

Profit for the period amounted to EUR 3.56 million (0.94). Earnings per share amounted to EUR 0.07439 (0.02625).

For the quarter ended 31 March 2016, the Group had an effective tax rate of 6.5 percent.

Investments

Investments in intangible assets, which consist of player databases, websites and domains, amounted to EUR 10.35 million (5.60) during the quarter.

Acquisitions of property, plant and equipment amounted to EUR 0.14 million (0.04).

Cash and cash equivalents, financing and financial position

Cash flow from operating activities during the first quarter amounted to EUR 2.94 million (0.36). Cash flow used in investing activities was EUR 8.30 million (0.56) and was primarily attributable to the acquisitions that took place during the quarter. Cash flow from financing activities was EUR 24.21 million while the amount used in the comparative quarter was EUR 0.02 million. Cash and cash equivalents amounted to EUR 20.36 million (0.33) at the end of the quarter.

Significant risks and uncertainties

While the Group does not conduct any online gambling operations, the Group is dependent on the online gambling industry which comprises the majority of its customers. The laws and regulations surrounding the online gambling industry are complex, constantly evolving and in some cases also subject to uncertainty, and in many countries online gambling is prohibited and/or restricted. If enforcement or other regulatory actions are brought against any of the online gambling operators, which are also the Group's customers, whether current or future, the Group's revenue streams from such customers may be adversely affected. Further, the authority concerned may also claim that the same or similar actions should be brought against any third party having promoted the business of such online gambling operator, including the Group. Accordingly, any such event, including future changes to laws and regulations, could have a material adverse effect on the Group's business, financial condition and results of operations.

Notes to the condensed consolidated interim financial statements

1. General information

Catena Media p.l.c. (the “Company”) is a limited liability company and is incorporated in Malta. The Company and its subsidiaries (together, the “Group” also referred to as Catena Media) engage in online and affiliate marketing.

The Group attracts users through online marketing techniques and subsequently seeks to channel high value “traffic” (i.e. users) to online and mobile businesses who, in turn, convert such traffic into paying customers. In return, the Group receives either: (i) a share of the revenue generated by such users, (ii) a fee generated per user acquired, (iii) other fixed fees or (iv) a hybrid of any of these three models (refer to note 3).

2. Accounting policies

The principal accounting policies applied in the preparation of the Group’s condensed interim consolidated financial statements are consistent with those presented in the Annual Report for the year ended 31 December 2015. Detailed information about the Group’s accounting policies can be found in the Annual Report for 2015 (Note 2), which is available on www.catenamedia.com.

2.1 Basis of preparation

The Company was incorporated on 29 May 2015 under the terms of the Maltese Companies Act, 1995. On 1 June 2015, the Company acquired a 100 percent shareholding in Catena Operations Limited from its previous five shareholders. On 1 January 2015, Catena Operations Limited transferred its investment in Paxo Finans AB, a subsidiary in which it previously held a 95 percent interest, to Catena Invest Ltd, a related company which is not included in the Group.

The substance of the above was that of a group restructuring by virtue of which the Company became the new parent company of Catena Operations Limited. Accordingly, the shareholders of the Company are identical to those of Catena Operations Limited, and the restructuring solely interposed an additional holding company as holder of the shares in Catena Operations Limited. This transaction has been accounted for in the consolidated financial statements as a restructuring, and these have been compiled as if Catena Media p.l.c., was the parent company of the Group from incorporation. Accordingly, in order to provide more meaningful information to potential investors, the comparative figures include the financial performance and position of the Group even though the new parent company was legally incorporated on 29 May 2015. The comparative figures therefore present the consolidated results for Catena Operations Limited, the previous parent, and adjustments to reflect the impact of the re-organisation have been reflected in the Statement of changes in equity.

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU and the requirements of the Maltese Companies Act, 1995. They have been prepared under the historical cost convention.

This quarterly report has not been audited or reviewed.

Standards, interpretations and amendments to published standards that are not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective for the period ended 31 March 2016, and have not been applied in preparing these condensed consolidated interim financial statements. None of these are expected to have a material impact on the financial statements of the Group in the current or future reporting periods.
