

The Board of Directors' report in accordance with paragraph 10.3 of the Swedish Corporate Governance Code

According to the Swedish Corporate Governance Code the board shall establish a remuneration committee which shall have as their main task to monitor and evaluate programs for variable remuneration to the executive management, the application of the guidelines for remuneration that the annual general meeting has resolved on as well as the current remuneration structures and remuneration levels in the company.

The Board of Directors of Catena Media plc has formed a Remuneration Committee consisting of Kathryn Moore Baker and Anders Brandt. Ms. Baker is the Chairwoman of the committee.

The Board hereby submits the following report of the results of the Remuneration Committee's evaluation of the programs for variable remuneration, the application of the guidelines for remuneration that the Annual General Meeting of Catena Media has resolved on and the current remuneration structure and remuneration levels in the Company.

Remuneration to Catena Media's Senior Management consists of a fixed salary, a possible variable compensation, the possibility to participate in share-based long-term incentive programs, as well as pension schemes and customary benefits.

The variable compensation for the CEO is capped at 80 per cent of the annual basic salary and in respect of other members of the Senior Management than the CEO, the variable remuneration is capped at 70 per cent of the annual basic salary and is based on the outcome of individual goals, determined by the Board. This compensation is cash-based.

For the Senior Management and other key employees of the Catena Media Group there are share-based long-term incentive programs as for 2015, 2016 and 2017. The programs run for three years and are performance-based.

The 2017 Annual General Meeting adopted a separate share-based long-term incentive program for the CEO commencing in 2018. Since the Company's former CEO, Robert Andersson, left his position in October 2017 no options will be allocated to him and no options are available for allocation to the Company's acting CEO.

The Remuneration Committee has evaluated the outcome of the variable compensation for the Senior Management and the conclusion is that the variable compensation is satisfactory and is aligned with the interests of the Company and the shareholders.

The Remuneration Committee has further evaluated the ongoing share-based incentive programs for the Senior Management and concluded that they are working well and that they constitute effective tools for attracting, retaining and motivating the Senior Management and other key employees. In order to continue to incentivise the Senior Management and key persons and to achieve a greater alignment of interests between the participants and the shareholders, as well as to create conditions for retaining and recruiting competent persons to the Catena Media Group, the Board and the Remuneration Committee have prepared a proposal on a new long-term incentive program for 2018. More information on the proposed 2018 program, appear from the notice of the Annual General Meeting.

According to effective guidelines for remuneration, adopted by the 2017 Annual General Meeting, their purpose is to ensure the Company's access to executives with the right set of skills and that the Company can offer a remuneration that is on market terms and competitive. The Remuneration Committee has evaluated these guidelines and the application thereof. The conclusion is that the guidelines effectively have fulfilled their purpose and functioned as intended and the application of the guidelines has been correct. The Committee has therefore recommended the Board to propose, to the 2018 Annual General Meeting, guidelines that are essentially consistent with those applicable from the 2017 Annual General Meeting.

Furthermore, the Remuneration Committee has, based on an independent evaluation, evaluated the structures and levels for compensation in the Company, and the Remuneration Committee finds these to be in line with the going rate in the market.
